

NAALAKKERSUISUT
GOVERNMENT OF GREENLAND

PROGRAMME FOR THE GREENLAND DAY IN PERTH, WESTERN AUSTRALIA

The sponsors are acknowledged very much for their support of the Greenland Day. Greenland Minerals and Energy Ltd. is a large sponsor together with sponsorships from Ironbark Zinc Ltd., Czech Geological Research Group (CGRG) and Minesonline.com. BMP, the Centre for Exploration Targeting and GEUS are both organizers and sponsors of the event.

Event details:

- Date: Tuesday 04 December, 2012
Where: UWA Club at the University Campus, Perth
When: 8.30am – 5pm followed by Sundowner
Catering: Morning tea, afternoon tea and light buffet lunch provided

It is the fourth year; the Greenland Day conference gives industry members a golden chance to learn how they can benefit from the island's mineral riches. Technical presentations on the latest initiatives, the island's geological history, and some of the potential exploration activities will be given by senior members of BMP, the Geological Survey of Denmark and Greenland (GEUS) and the CET. Company project presentations include Czech Geological Research Group, Greenland Minerals and Energy, Hunter Minerals, Ironbark Zinc, North American Nickel, Tanbreez, and Platina Resources.

Contact: Henrik Stendal (BMP)
Bureau of Minerals and Petroleum
P.O. Box 930
3900 Nuuk, Greenland

The Centre for Exploration Targeting (CET) is a partnership between
The University of Western Australia,
Curtin University of Technology and Industry

Programme – Greenland Day – Perth 2012

Time	Author	Title
08:30 – 09:00		Registration
09:00 – 09:15	BMP and CET	Welcome
09:15 – 09:40	Henrik Stendal	Highlights of the recent activities and initiatives in Greenland
09:40 – 09:55	Bo Møller Stensgaard, Marco Fiorentini	General presentation of GEUS and CET – and why CET is involved in Greenland
09:55 – 10:40	Jochen Kolb, Leon Bagas, Bo Møller Stensgaard, Sandra Piazzolo	Introduction to 4 billion years of geological history of Greenland and data
10:40 – 11:00		Coffee/tea break
11:00 – 11:30	Jochen Kolb, Leon Bagas, Marco Fiorentini, Bo Møller Stensgaard	Comparison between endowed terranes in Greenland and Australia
11:30 – 12:00	Marco Fiorentini, Leon Bagas, John Owen, Brendan Lally, Bo Møller Stensgaard, Jochen Kolb, Nicolas Thebaud	A joint CET-GEUS-BMP research project: Nickel mineral systems in Archaean ultramafic rocks in South-East Greenland
12:00 – 12:30	Marco Fiorentini, Bo Møller Stensgaard, Jochen Kolb, Leon Bagas	The potential for nickel mineralization in Greenland
12:30 – 13:00		Lunch break
13:00 – 13:30	Jochen Kolb, Bo Møller Stensgaard	Potential areas for gold exploration in Greenland
13:30 – 13:50	John Ferguson	Thule heavy mineral sand project by Hunter Minerals Pty Limited
13:50 – 14:10	Jonathan Downes	Progress in the zinc projects – Citronen Fjord and Washington Land by Ironbark Zinc
14:10 – 14:30	Jan Stembera	Exploration projects in East Greenland (granite intrusions) by Czech Geological Research Group (CGRG)
14:30 – 14:50		Coffe/tea break
14:50 – 15:10	Robert Mosig	The Skaergaard Project (Au-PGE) by Platina Resources Ltd.
15:10 – 15:30	Roderick McIlfree	The Kvanefjeld project by Greenland Minerals and Energy
15:30 – 15:50	Greg Barnes	The Kringlerne project (Zr-REE-Nb-Ta-Y) by Tanbreez Greenland
15:50 – 16:10	John Ferguson	Maniitsoq nickel-copper-cobalt mineralization by Advisor to North American Nickel Inc.
16:10 – 16:30	Henrik Stendal	Other prospective projects in Greenland
16:30 – 17:00	CET-GEUS-BMP	Discussion and concluding remarks
17:00 19:00		Sundowner
